Basic Information

- Place of Origin: China
- Brand Name: ShengQuan
- Model Number: 201/304/304L/316/316L

Product Specification

- Durability: Long-lasting
- Cable Tray Length: Customized
- Size: Various Sizes Available
- Weather Resistance: Yes
- Load Capacity: Medium To Heavy Duty
- Cable Tray Width: 50mm-1000mm
- Cable Tray Depth: 50mm-1000mm
- Material: Stainless Steel
- Highlight: **Durable Ss 304 Cable Tray**, **Medium Duty Ss 304 Cable Tray**, **Heavy Duty Ss 304 Cable Tray**

Product Description:

The tray's high corrosion resistance ensures that it can withstand harsh environments and maintain its structural integrity for a long time. The tray's Inox Cable Channel construction allows for maximum strength, making it a suitable option for heavy-duty industrial and commercial applications.

The Stainless Steel Cable Tray is available in widths ranging from 50mm to 1000mm. This variety allows for versatility in cable management, as you can choose a width that best suits your needs. This feature also makes it ideal for organizing cables of various sizes and quantities.

The tray's weather resistance makes it an excellent choice for outdoor use. It can withstand exposure to rain, snow, and sunlight without compromising its strength and durability. This quality makes it an ideal solution for cable management in areas where outdoor exposure is inevitable.

In summary, the Stainless Steel Cable Tray is a reliable and durable product that provides excellent cable management solutions for industrial and commercial applications. Its customized length, high corrosion resistance, weather resistance, and width variety make it an ideal choice for organizing cables of different sizes and quantities. The Inox Cable Channel construction ensures maximum strength and longevity, making it a long-lasting investment for your cable management needs.

Features:

Product Name: Stainless steel cable tray
Durability: Long-lasting
Application: Indoor And Outdoor
Load Capacity: Medium To Heavy Duty
Corrosion Resistance: High
Weather Resistance: Yes
Product Type: Steel Wire Cable Tray
Cabling System: Metallic Rod

Technical Parameters:

Attribute	Value
Product Name	Steel Wire Cable Tray, Stainless Iron Wiring Bridge, Chrome Nickel Wire Mounting Tray
Maintenance	Low Maintenance
Accessories	Available For Purchase Separately
Cable Tray Depth	50mm-1000mm
Cable Tray Length	Customized
Installation Method	Wall-mounted, Suspended, Etc.
Corrosion Resistance	High
Durability	Long-lasting
Size	Various Sizes Available
Cable Tray Height	50mm-1000mm
Material	Stainless Steel

Applications:

The Stainless Steel Cable Tray comes in different sizes, making it versatile and suitable for various installations. It can be installed as a Wall-mounted or Suspended system, depending on the design of the setting. The Inox Cable Channel can be designed to have heights ranging from 50mm to 1000mm, providing ample room for your cabling needs.

The ShengQuan Stainless Steel Cable Tray is highly resistant to corrosion, ensuring that it can stand up to harsh environments without deteriorating. The product is low maintenance, reducing the time and resources spent on upkeep.

The Stainless Steel Cable Tray is ideal for use in a variety of scenarios. In industrial settings, it can be used in power plants, chemical factories, and manufacturing plants. In commercial settings, it can be used in offices, hospitals, and shopping malls. It is also suitable for use in residential settings, including apartment buildings and homes.

In conclusion, the ShengQuan Stainless Steel Cable Tray is a versatile, durable, and reliable solution for cable management needs. With its high corrosion resistance, low maintenance, and various installation methods, it is an excellent choice for any setting requiring a robust cabling system.
